Cut-Resistant String-Knit Leather Palm Gloves

#SKWCPLP

Using our own Kevlar<sup>®</sup>-stainless steel composite yarn blended with polyester to achieve great cut resistance while at the same time improving comfort. These gloves are an ideal glove for moderate cut applications such as handling metal stampings, glass or other sharp materials. The leather palm is made with grade A split, making it extremely durable. Just like our Action<sup>™</sup> leather palm, it is sewn with Kevlar<sup>®</sup> and wrapped around the finger and thumb for excellent wear. Made with a wing thumb for improved comfort.
