Plastic Handled Paint and Varnish Brushes – Bristle

Use these brushes with oil-based paints. The natural flag of the bristle enables it to hold more paint, release it evenly and slowly and provides for smooth distribution. Price-sensitive and durable, these high quality, plastic-handled brushes are perfect for the price-sensitive homeowner or for those who must satisfy high performance demands on tight budgets. Examples include: building maintenance staffs at hospitals, municipalities, universities or office and industrial complexes.
