The Squids® 3134 Barcode Scanner Sling Lanyard is designed to keep barcode scanners secure and accessible. This industrial-grade scanner sling is built with a heavy-duty webbing strap and buckle for work in the harshest environments.

A curved buckle sits comfortably against the body for all-day wear and can be easily accessed for quick on/off. Two small loop attachments easily connect and disconnect to small captive holes built into cordless barcode scanners.

Replacement Barcode Scanner Loop Attachments (10-pack) sold separately. One-size-fits-all, the webbing strap is adjustable to fit a variety of workers.

This sling lanyard prevents expensive scanners from being dropped, causing damage to the scanner, other items/equipment or workers on the job. It is ideal for attaching to cordless barcode scanners for work in warehouses, distribution centers, material inventory on construction and steel sites, airline baggage scanning and grocery/personal shopping.
