

PREMIUM WELDING GLOVES

Unique Natural Thumb™ design reduces fatigue in production welding while the Heat Resistor™ triple layer lining increases heat protection

021NT

Natural Thumb™

Layer 1

Top quality side split leather

Layer 2

Aluminized Mylar® reflects radiant heat from back of hand and forearm

Layer 3

ThermoCore™ foam insulated with full cotton lining for added comfort and heat protection

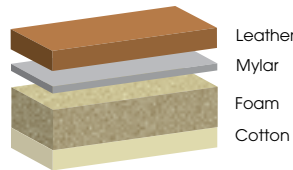

Welted fingers and seams protect stitching

Durable lock stitching with flame resistant Kevlar® thread for added strength

Curved finger base conforms to natural finger alignment

Double reinforced thumb, saddle, and palm strap

Natural Thumb™ opens at 45° angle to reduce fatigue
